The first half of the present Music Class has closed. An excellent opportunity now offers for those somewhat advanced to join the class. The next meeting on Monday evening, in the lecture room of the First Baptist Church, at 7 o'clock.

FIRE IN ATTLEBOROUGH.—The picket-house attached to the factory at Dodgeville, belonging to Messrs. B. B. & R. Knight, of Providence, was partially destroyed by fire Tuesday morning. Under the same roof, were a grist mill and a machine shop. The whole property was insured for \$5,000, which will more than cover the loss.

LONGEVITY.—There were found in the United States in 1850, 5,555 persons over 100 years of age. This shows that about one person in 9000 will be likely to live to that age. The French census of 1851 shows only 103 persons over 100 years old, though their population was larger, by more than one third, than the population of this country. Old age, is, therefore, attained among us much more frequently than in France.

THE INDIANS regard a thin husk on corn as an indication of a mild winter. This being true, the one just approaching will be of the gentle kind, as the husks are said to be very thin.

THE VILLAGE of La Crosse, Wisconsin, the terminus of the La Crosse and Milwaukee Railroad, was laid out four years ago, and is now said to contain two thousand houses. It supports a newspaper, and enjoys the frequent visits of some thirty different steamboats.

A MELANCHOLY STORY.—Among the twelve who were punished on Monday for drunkenness was one—a female—whose history is truly melancholy, though by no means unusual. She is not yet old, and was once pretty, courted and admired by all. She was born in the South, of wealthy parents, and her early years were blest with all the blessing of one in her station. Her education was thorough, and she early gained a good reputation as a writer. She soon evinced a passion for the stage, passion, so uncontrollable that despite the entreaties of parents and friends, she became an actress. In this sphere she was very successful, and after a time made her appearance on the boards in this city, where she created no little furor. Her appearance was always hailed with enthusiasm, but after a time her fame and fortune began to wane. She fell, as many of the profession had done before, a victim to drink! Becoming daily worse no manager would run the risk of engaging her. For a time she gave evidence of an intention to reform, but the terrible passion predominated: she again fell. The formerly lovely woman, talented authoress and fine actress sleeps to-night a vagabond in the Tombs!—N. Y. Times.

HUMORS OF POLITICS.—Passing the Tribune office Tuesday night after it had become pretty generally known that "Sam" had gone in with a rush, we were not a little amused to hear one of "Sam" particular friends most humorously, but with great earnestness, declaring that he cared not a copper who had won if "Greeley and the niggers" were only beaten. "But," interposed a companion, "it's the bloody Know-Nothing's that's elected." "Oh! the devil a bit I care, when Greeley's not elected," was the emphatic rejoinder. "It's them blabberin' nigger fellows that's always drivin' the pace of the country and wantin' to give England her way wid us whin she cracks a finger that I like to see licked." They're the meanest party ever got up, and bad luck to them; I hope the Know-Nothing's has licked them."—New York Sun.

A RETURNED Californian was robbed on Tuesday evening, at the Irving House, New York, of \$4,000, the thief having entered his room by means of a false key.

Later From Europe.

The Collins mail steamer Pacific, Capt. Nye arrived at her wharf about 8 o'clock this morning, having left Liverpool on Saturday, the 3d of Nov., at 3 1-2 o'clock, p. m. She brings 181 passengers.

The Pacific arrived out at 3 3-4 o'clock on Sunday, Oct. 28th.

On the 4th inst., at 3 o'clock in the morning, when 10 miles above Tuscarora, passed the steamer Canada, from Boston.

A Liverpool correspondent writing on the eve of the steamer's departure, says:—

"The news this week is in one respect important in the highest degree. Excited by a series of editorials in the London Times, the public mind of Great Britain has been agitated by the apprehension of immediate war with the United States."

"The London Times stated that with reference to the recruiting difficulty, 'the British Government have displayed a most commendable spirit of forbearance and moderation, while the proceedings of the Government of the United States disclosed a desire to force a quarrel. The language and conduct of the American Government are extraordinary * * * and recklessly urging matters to an extremity. To the demands of the United States the British Government has returned a temporary but dignified reply, and has seconded its diplomacy by strengthening its West India fleet with the ships that have arrived from the Baltic. In this position, affairs now stand.' These comments of the Times were echoed by the provincial press, with exaggerations, until they gained almost universal credence, and we must do the British public the justice to add, the belief excited general astonishment and regret, until on Friday evening, the 2d inst., the Liverpool Post issued an extra containing these words:

"RUPTURE WITH AMERICA.

"Private messages by telegraph state that the American Minister in London has demanded his passport, or an equivalent to it, from our Government."

"News so astounding might be received with incredulity, but we can only say that buyers of cotton are acting on the report, and there is a sensation on 'change.'"

We have to thank his Excellency, Mr. Buchanan, for his courtesy in telegraphing the following explicit contradiction to our Liverpool agent, in reply to an enquiry by that gentleman as to the truth of the rumor:—

"London, Night of Nov. 2d.—The American Minister, to the agent of the Associated Press, Liverpool. It is not true that the American Minister has demanded his passport from the British Government. There is no foundation for such a report."

Our agent, not feeling at liberty to make use of this information, gave it no publicity in England, where at the time of his writing to us as above, the rumor of a rupture remained uncontradicted.

From the Liverpool Times, Nov. 3d.

Yesterday, a rumor prevailed here and in London that the American Minister at the court of St. James's had either been recalled or would leave for the United States by the packet which sails to-day.

We happen to know, through a private source, that Mr. Buchanan had an interview with Lord Clarendon on Tuesday last, in the course of which his lordship assured the American Minister that the British Government were informed, on unquestionable authority, that ships were being built and fitted out in the United States for the express purpose of making a descent on Cuba, on the British West Indies, and on other parts of the British possessions. But the interview between the English Foreign Minister and the American Ambassador was so friendly, that the last named personage was to have dined with Lord Clarendon yesterday—Friday.

Since this friendly interview, however, took place, an article has appeared in the London Times, which Mr. Buchanan may think is calculated to compromise him in the eyes of his own government and the American public, and he may have resented the information which it contains as a breach of confidence.

The articles to which we refer must have been inspired by some member of the Government, possibly by some member of the Cabinet, and, therefore, without at all endorsing the rumor to which we have referred, we can readily conceive Mr. Buchanan's annoyance at having his name mixed up with a transaction so delicate as the one pointedly referred to in the Times of Thursday, Nov. 1. [The article mentioned is given above.]

Eds. Con. Adv.

This article, we repeat, may have annoyed Mr. Buchanan, for, although substantially correct, many matters pass confidentially between a Minister and the Government to which he is accredited, which cannot be given to the world without a breach of diplomatic etiquette.

If such be the case in the present instance, and we are merely assuming it to account for the rumor which prevailed in London yesterday, it amounts to nothing more than a misunderstanding between our Government and the Ambassador—in a word, a personal affair. The probability is there is not a word of truth in the rumor, for assuredly, up to Tuesday last as we have stated, the most cordial feeling existed between Lord Clarendon and the American Ambassador.

IMMINENCE OF AN AMERICAN WAR.

From the Liverpool Journal of Saturday, Nov. 3d, (Second Edition.)

"We have received a telegraphic message from London conveying the most serious intelligence, and we can vouch for its importance, for the information comes from a source which excludes the possibility of doubt. We are anxious to be considered emphatic, for the country is on the eve of a war with the United States, unless public opinion is brought to operate immediately on her Majesty's Ministers."

"An active interchange of diplomatic notes has taken place this week, between the Earl of Clarendon and the American Minister."

"The cause assigned by the British Government for the appearance of our ships of war at Bermuda, was the report of a Russian privateer being now fitting out in the port of New York, but this fact is denied; and it is well known pretext, for the real cause refers to the affairs of the Mosquito territory."

"The existing business never gave a moment's uneasiness; never occasioned an angry word from the Government at Washington; never caused a solitary complaint against Mr. Crampton."

"The Mosquito question is the one which imperils the peace between Britain and the United States. It has been for some time a source of diplomatic dispute between the two countries and now tends to an open rupture. The American Government considers a war highly probable, and the probability proceeds from certain conceptions of views entertained by Lord Palmerston."

"The Mosquito territory extends from Cape Honduras to the River San Juan, and is proximate to Honduras and Nicaragua. It was a trouble to us in 1848, and is that part of Central America where different national and local interests now concentrate. The quarrel about it would be madness."

BY TELEGRAPH.

WASHINGTON, Nov. 15.
Com. Paulding has not yet received any instructions whatever regarding his projected visit to San Juan de Nicaragua. It is asserted that they will not be such as to excite apprehensions of another Greytown affair.

Gen. Callon, of Tenn., a prominent American candidate for Clerk of the House of Representatives, has arrived here, and the possibility of his election is creating much excitement in political circles. Senators Crittenden and Owen have also arrived.

"You say, Mr. Jay, you saw plain-tiff leave the house? Was it in haste?"

"Yes, sir."

"Do you know what caused the haste?"

"I'm not quite certain, but I think it was the boat of Mr. Stubbs, the gentleman who boards with."

"That will do, Mr. Jay. Clerk, call the next witness."

To horse owners, stable keepers and others—

Dyer's Healing Embrocation has proved to be one of the best remedies for lameness, caused by strains, bruises, sprain or other accidental causes as well as for wounds, galls or other injuries that are frequently occurring to horses and other animals. It is also the cheapest preparation that can be used. A stable keeper in Providence says—

"I have frequently used it with the most decided marked results upon my horses. I use it in all cases of cuts, wounds and bruises, and in internal pains and distresses, and it never fails to give immediate relief, or to effect a cure."

It will heal wounds, cuts or sores, upon man or animal, sooner than any other preparation I have ever used."
